Please note that authorization requests for pre-planned C-sections and other elective inpatient surgeries may also be submitted online. You may review a summary of your authorization request on the right side of the screen to ensure the information is correct.

Please note:

Authorization/Certification determinations are made based on medical necessity and appropriateness, and reflect the application of 'Ohana's review criteria guidelines. Once you complete each authorization request, you can download or print a summary report for your records.

Filing a Claim

Claims, both paper and electronic, should include all necessary, complete, correct and compliant data including:

- Current CPT and ICD-9 (or its successor) codes;
- TIN;
- NPI numbers; and
- Provider and/or practice name(s) matching the W-9 initially submitted to 'Ohana.

'Ohana encourages providers to submit claims electronically via **Electronic Data Interchange (EDI)** or **Direct Data Entry (DDE)**. This is less costly than billing with paper and, in most instances, results in quicker claims processing.

Electronic Claims – EDI

Providers should follow the HIPAA transaction and code set requirements as found in the National Electronic Data Interchange Transaction Set Implementation Guides that are available at www.wpc-edi.com. EDI claims should:

- Be in the ANSI ASC X12N format, version 4010A, or effective **January 1, 2012**, version 5010;
- Be on the nationally accepted 837 file format;
- **Include Payer ID 14163 on claims submissions; and**
- **As applicable, include Payer ID number 59354 on claims encounter submissions.**

Fee-For-Service Clearinghouse Submitters

All Fee-for-Service (FFS) providers and provider vendors must send claims through a clearinghouse. 'Ohana is contracted with RelayHealth, a division of McKesson, as our sole source clearinghouse to manage EDI connectivity between 'Ohana and our providers. **'Ohana only accepts electronic claims through RelayHealth.**

If your vendor (i.e., practice management system, billing service or clearing house) is not connected to RelayHealth, we strongly encourage you to contact them directly and request that they establish this **FREE** connection. Upon confirmation from your vendor of continued electronic claims submission to 'Ohana via RelayHealth, no further action is necessary.

If you have any questions regarding submission of EDI transactions directly through RelayHealth, refer to your Quick Reference Guide for contact information for providers and vendors.
