Here is your ‘Ohana Health Plan provider directory. It lists all of the providers in our network. These providers include:

- Primary care providers (PCPs) and specialists
- Hospitals
- Pharmacies

Each of these providers will make his or her own decisions about the care you need. ‘Ohana Health Plan is not responsible for these decisions. Some providers may not perform certain services due to their religious or moral beliefs.

We’ve listed all of the providers by Island. Then we’ve grouped them together by the type of care or services they give. We’ve also included:

- The providers’ addresses and phone numbers
- Symbols to tell you whether the provider is accepting new patients, board certified or wheelchair accessible

Telehealth Services let you visit with a provider by video so you can get care closer to home. You can receive services from a provider who doesn’t have an office nearby. Telehealth works a lot like a normal office visit.

- Telehealth providers are Practitioners licensed within their scope of practice to perform the Service.
- Telehealth services are provided using interactive telecommunications equipment that includes, at a minimum audio and video equipment permitting two-way, real time, interactive communication between you and the provider.
- Your information will be kept private

All providers have completed Cultural Competency training.
