# Medicaid Partnership for Quality (P4Q) Program Announcement

At ‘Ohana Health Plan, we understand that the provider-member relationship is a key component in ensuring superior health care and the satisfaction of our members. Because ‘Ohana Health Plan recognizes these important partnerships, we have developed the 2026 P4Q Program to reward primary care providers (PCPs) for submitting documentation for HEDIS® Measures (ICD 10, CPT II, NDC).

In order to help you maximize gap closures, ‘Ohana Health Plan pays \$0.01 for certain CPT II codes to allow you to bill without receiving a non-payable code denial. Using CPT II codes for certain preventive care services and test results makes it easier for you to share data with ‘Ohana Health Plan quickly and efficiently.
